

RTG Neural Circuit Analysis
SAB Symposium
3rd November 2015
Lecture hall 0.024, Biocenter

- 9:00 Welcome by Ansgar Büschges
- 9:10 Astrid Prinz
Ensemble modelling in neuroscience
- 9:50 Marlene Bartos
Distance-dependent inhibition in rodent dentate gyrus
coffee break
- 10:50 Bruce R Johnson
Effect of injury on the firing properties of spinal cord neurons
- 11:30 Michael Brand
Regeneration of the adult zebrafish brain and retina
- 12:10 lunch break (SAB and RTG PIs in restaurant)
- 13:30 Tamas Horvath
Hunger-promoting brain cells regulate health and lifespan
- 14:10 Albena Jordanova
Unraveling the genetic basis of peripheral neurodegeneration – *is there a hint?*
- End of symposium and transition to RTG retreat
